

**Strategic Environmental Assessment Screening Determination under the  
Planning and Development Acts 2000-2017 for:**

**Proposed Variation 3 to the Kilkenny County Development Plan 2014 - 2020**

A Strategic Environmental Assessment Screening determination has been made by Kilkenny County Council regarding Proposed Variation 3. Article 13 (K) of the Planning and Development Regulations (Strategic Environmental Assessment) 2004 requires, inter alia, a determination to be made as to whether the Proposed Variation warrants the undertaking of environmental assessment.

The Proposed Variation is in order to:

- (a) Incorporate the expired Local Area Plan areas of Piltown, Fiddown and Gowran into the County Development Plan with settlement boundaries in accordance with Section 3.3.5.1 of the County Development Plan
- (b) Extend the settlement boundary of the Ballyragget area in order to facilitate housing development

In accordance with the requirements of Article 13K, a 'screening' of the proposed Variation was undertaken in respect of SEA. A Draft Screening report, setting out the Council's considerations with regard to the relevant criteria for determining whether the Variation was likely to have significant impacts on the environment as set out in Schedule 2A of S.I. No. 436/2004, was submitted to the environmental authorities in line with Article 13A(4)(a) of the Planning and Development Regulations (Strategic Environmental Assessment) 2004.

None of the authorities advised that a Strategic Environmental Assessment should be carried out; the information contained in the response received from the EPA has been taken into account.

The SEA screening, which had regard to the criteria set out in schedule 2A of S.I. No. 436/2004, did not indicate that that the proposed Variation was likely to have significant impacts on the environment.

Taking into account the findings of the SEA process that are detailed in an SEA Screening Report that accompanies this Determination, Kilkenny County Council have determined that the Proposed Variation to the Kilkenny County Development Plan 2014-2020 would not be likely to have significant effects on the environment, therefore an environmental assessment is not required.
