How long have you lived in Kilmacow? *I was born and reared here married and built a new house 22 yrs ago*

What attracted you to live in Kilmacow? *Had no choice but to live here up to my 20's but settled here because it was a close knit community with a great spirit and facilities*

What do you like most about Kilmacow? *The sporting facilities, the schools, the farm as we call the sports complex, nice houses, good farming community, friendly village atmosphere.*

What do you like least about Kilmacow? *Can't think of anything - maybe bad roads especially when the one flooded.*

What changes would you most like to see in Kilmacow? *Not too many. More sports and playing fields. Some facilities and activities for teenagers to keep them fit and not chug and out of the pubs. Better (more frequent) doctor surgery.*

What changes would you least like to see in Kilmacow? *Large scale developments like Chapelgate. There is no sense having a housing estate in the middle of the country. I'd prefer one-off houses on a minimum of one acre and set well in off the road - some lovely examples in Ullid Tiersboro Area. 2 distinct villages, each with their own history as well as 2 separate areas i.e. morabane and dangan*

Please describe how you would like Kilmacow to be in 10-20 years time. *most development to take place in the land hemmed in between the morabane road and the dangan road which would mean most houses would be close to the 2 schools.*

Is there anything else you would like to tell us about planning for the future of Kilmacow? *Developing fishing facilities in the river when all the houses are connected to the sewerage system the river should be less polluted & could be restocked - it was always a good fishy river when we were growing up.*

WE NEED TO KNOW YOUR VIEWS (PLEASE COMPLETE)

How long have you lived in Kilmacow?

20 years

What attracted you to live in Kilmacow?

In the countryside and near to Waterford.
A lovely house on my husband's land
and looking on old mill

What do you like most about Kilmacow?

The schools are great, four teachers who know all the parents and families, I like being able to bring the children for walks near the complex.

What do you like least about Kilmacow?

The poor humpy roads, all the flooding speeding, hay wacers, and no safe places to walk or cycle between the two villages. There are no big playing areas.

What changes would you most like to see in Kilmacow?

1) Better lighting, a cycle path, restore an old mill, cut ditches, a chemists shop, plan ahead, a childrens play area on complex, maybe a therapy centre.

What changes would you least like to see in Kilmacow?

Too many houses would kill our community which generations of people have overseen. Keep the two villages separate & keep housing schemes small - Castle gate is poorly planned & does not fit into this beautiful place.

Please describe the character of Kilmacow as you see it now.

Kilmacow has a lovely age range of people - a lovely parish feeling with a kind of parish lovely scenery everywhere you go. Priest

Please describe how you would like Kilmacow to be in 10-20 years time.

Until 2014, no rezoning of any more land. There's lots at present and much work needs to be done to plan properly - low density and a variety of houses in small clusters. Each housing plot to have play areas hard court areas, soccer pitches, mow areas. More supervision & plans by council.
