02 (23) Cork County Council

“That Cork County Council would write to the Minister for Housing, Local Government & Heritage of Ireland to express concern at the proposed Planning & development Bill coming before cabinet this week which will limit local Councillors’ powers. The proposed bill seeks to change the term of the County Development Plan to ten years which is far too long. Members also agreed to circulate the letter to all local authorities as well as LAMA and AILG.”

03 (23) Cork County Council

“That Cork County Council would write to the Government and the Minister for Finance to reintroduce an income tax credit scheme to incentivise and encourage many more Irish people to take out personal health insurance cover while also preserving the existing rebate of up to €200 at the point of purchase.”

05 (23) Monaghan County Council

“That this Council calls on the Minister for Health, Department of Health and the HSE to put in place proper, sensitive procedures to avoid any future retention of a baby's organs, at post-mortem, without the express permission of the parent, to request that:

- Clear, written communication on consent forms be discussed with families at the time of death/prior to post-mortem taking place
- Best practice models be examined from other countries to ensure the Irish system is fit-for-purpose & with proper oversight
- Communication of post-mortem results be respectful and delivered by meeting with assigned medical professional - clear definition of this process should immediately become standard procedure for all hospitals
- Post-mortem documentation should include a clear, concise and fully completed document for families
- In cases where organs need to be retained; reasons must be clearly explained and a swift timeframe for their return must be communicated to parents.

Monaghan County Council demand that an investigation take place into the cases outlined by Primetime (RTE) on 3rd November 2022 and any other similar case that were not highlighted and that:

- Families who have had organs from their baby retained, be informed of what was taken and why, and what happened to the organs. These families should be afforded an in-person meeting to be given details.
- An independent inquiry takes place to determine why Consultant A was continuously used as a private pathologist after being found to be negligent in his former public-sector pathology role. This inquiry should also find reason as to why earlier recommendations, made by independent reviews, were not implemented.
- Clarification is needed on whether Consultant A is still conducting perinatal post-mortems.”
